

LIMPIA 13 ERG

Modern of design, robust, reliable and very simple to use. The transmission by reduction gear ensures a high pressure on the ground and an incomparable reliability. The handle is equipped with a double safety to start. Equipped with an ergonomic and comfortable PVC handle of high strength.

**Transmission;
double planetary**

LIMPIA 13 ERG

Standard equipment :

Supports on the handle for mounting accessories (tank)

Option:

**Tank
00230A**

Brushes

**nylon brush
00232**

**carpetbrush
00234**

**coco brush
00233**

**tynex brush
00237**

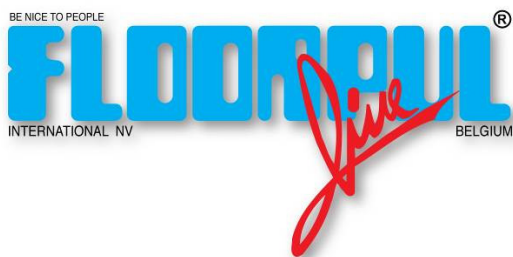

Other

**padholder
00231**

**padholder for cristallisationpads
00270**

LIMPIA 13 ERG

Technical data

Brushspeed tr/min	190
Brushdiameter mm	330 mm – 13 inch
Motor	230V 50Hz 500W
Transmission	double planetary
Cable	12 m
Commands	double safety on the handle
Weight	22 kg
Brushpressure g/cm ²	37,0 g/cm ²
Noise level	54 db(A)
Dimensions	1120x420x340 mm
Classe	I
Protection grade	IP X 4
Vibration level	<2,5
Norms an specifications	CE - RoHS
